LOGIC

HOME: *Choose where you want to go.*
EGS: *Go deeper into the thinking.*
HOW WE HELP: *Explore how SVK can help — and take the next step.*
RESOURCES: *Explore the knowledge, research and tools.*
ABOUT: *Understand who we are, what we believe and why we're here.*
LET'S TALK: *Start a conversation.*

All of this is just a suggestion, especially the sub-headings – to be finalized based on the marketing plan.

HOME 🔴 Major Change
ENDURING GROWTH SYSTEM™ 🔵 Net New
HOW WE HELP 🔴 Major Change / Replaces Services
RESOURCES 🟡 Evolve + Expand
ABOUT 🔴 Major Change
LET'S TALK 🔵 Net New / Consolidates three existing conversion paths

LEGEND

🔵 **Net New** = doesn't exist today
🔴 **Major Change** = page remains, but purpose/story/content materially changes
🟡 **Minor Change / Expand** = same basic page / purpose, messaging refresh
🟠 **Remove / Absorb** = standalone page goes away; useful content may move elsewhere
🟢 **Keep** = content and purpose remain substantially intact

From : To

CURRENT PAGE / ELEMENT	STATUS	FUTURE HOME	WHAT HAPPENS
Home	🔴 **MAJOR CHANGE**	Home	Same URL and role, but fundamentally new story, hierarchy and CTA strategy; review testimonial/proof hierarchy – lead with company-building/scaling proof rather than career-coaching proof
About	🔴 **MAJOR CHANGE**	About	Evolves from credentials/experience story to why SVK exists, EGS origin, experience + research; Add page title/meta description to the rebuild — current SEO still positions SVK as "Executive Coaching & Strategic Advisory"
Services	🔴 **MAJOR CHANGE**	How We Help	Same underlying visitor need, completely different organizing logic
Executive Coaching	🟠 **REMOVE / ABSORB**	Founder & CEO Advisory / possibly elsewhere	Founder/CEO material survives; general career coaching no longer belongs in core company-building journey
GTM Advisory	🟠 **REMOVE / ABSORB**	Growth Foundation / Revenue Flywheel / How We Help	GTM expertise remains; generic GTM Advisory stops being a standalone organizing concept
Revenue Flywheel	🔴 **MAJOR CHANGE**	EGS → Revenue Flywheel	Name survives, but page must reflect Customer Acquisition → Customer Value → Market Expansion; incorporate the relevant assessments
Fractional Leadership	🟠 **REMOVE / ABSORB**	How We Help / Specialist Support	Capability remains available where appropriate; no longer positioned as a core product category

From : To

CURRENT PAGE / ELEMENT	STATUS	FUTURE HOME	WHAT HAPPENS
Get Started	🟠 **REMOVE / ABSORB**	Let's Talk / conversion journey	Current consulting engagement explanation disappears
Book Now	🟠 **REMOVE / REPLACE**	Let's Talk	One coherent primary conversion path instead of competing CTAs
Our Team	🔴 **MAJOR CHANGE**	About → Our Team	Team remains; positioning changes from fractional bench toward multidisciplinary company-building expertise; Consider connecting associates to their **specific areas of EGS expertise**, rather than presenting bios as an undifferentiated bench
Resources	🟡 **MINOR CHANGE / EXPAND**	Resources	Concept is right and already aligned with where SVK is going; library becomes much richer; Add **editorial/content audit**: retire or update obsolete single-flywheel terminology and other content that conflicts with current EGS architecture.
Blog / Articles	🟠 **ABSORB**	Resources → Articles	Content remains; "Blog" ceases to be a separate destination/concept
Contact	🟠 **REMOVE / ABSORB**	Let's Talk	Contact functionality remains without needing separate primary navigation

HOMEPAGE

CURRENT HOMEPAGE	ACTION	RECOMMENDED HOMEPAGE
1. Hero	🔴 Major change	**1. Hero — What SVK stands for**
2. Intro / About SVK	🔴 Major change	**2. The Problem / SVK POV — Why building companies is harder than it should be**
3. Services	🟠 Remove / Replace	**3. Enduring GROWTH System™— Our integrated architecture for understanding company growth**
4. Executive Coaching / GTM Advisory / Revenue Flywheel / Fractional Leadership	🟠 Remove	—
—	🔵 Net new	**4. Who We Help — Recognize yourself / your situation**
—	🔵 Net new	**5. How We Help — How SVK helps you determine what your company needs next**
5. Existing proof / testimonials	🟡 Keep / Rework	**6. Evidence / Client Outcomes — Outcomes, evidence, credibility**
—	🔵 Net new	**7. Research + Resources — Explore the thinking / thought leadership**
6. Existing team / experience content	🟡 Keep / Reframe	**8. Experience — Very compact; people behind the expertise**
7. Existing conversion / CTA content	🔴 Consolidate	**9. Final CTA — Let's Talk**

Include three types of home page links:

- **Primary journey links** should be prominent. EGS → EGS page, How We Help → How We Help page, Final CTA → Let's Talk. Those are central pathways through the site.
- **Exploration links** can be quieter text links. For example, “Meet the team →” or “Why SVK exists →”. They're available without competing with the primary journey.
- **Content links** belong naturally within Research + Resources and Proof. A Research Spotlight, guide or case study can simply be clickable.

ENDURING GROWTH SYSTEM PAGE

#	RECOMMENDED EGS PAGE	PURPOSE	DEEPER LINK
1	**Hero — The Enduring GROWTH System™**	Define EGS, establish why it exists, and show the overall architecture	—
2	**Company Evolution**	Explain that companies evolve through six distinct stages and what a company needs changes with its stage	Company Evolution →
3	**Growth Chasms**	Explain the critical transitions between stages and why companies get stuck crossing them	Growth Chasms →
4	**Founder Identity**	Show that the founder's role must evolve as the company evolves	Founder Identity →
5	**Growth Foundation**	Introduce the six foundational questions/evidence required to establish and maintain strategic clarity	Growth Foundation →
6	**Revenue Flywheel**	Show how companies systematize Customer Acquisition, Customer Value and Market Expansion	Revenue Flywheel →
7	**The Integrated Architecture**	Bring the five components back together and show why EGS is more powerful as a system than as individual frameworks	—
8	**CTA — Apply EGS to Your Company**	Move from understanding the system to understanding what it means for *your* company	How We Help → / Assessment →

EGS PAGE LINK GUIDANCE

- **Framework links** should be the primary links throughout the page. Each EGS component should link naturally to its deeper page: Company Evolution →, Growth Chasms →, Founder Identity →, Growth Foundation →, Revenue Flywheel →.
- **Resource links** should be contextual and secondary. Relevant guides, research, assessments or articles can be linked within the appropriate EGS section without interrupting the explanation of the system.
- **Conversion links** should be limited. The page's primary job is to help visitors understand EGS, not repeatedly sell SVK. Use a clear CTA near the end to move from **“understand the system” → “apply it to my company.”**

HOW WE HELP PAGE

#	HOW WE HELP	PURPOSE
1	**Hero — How SVK Helps**	SVK helps founders understand where their company is, what's preventing progress, and what to do next
2	**Start With the Company, Not the Symptom**	Explain our diagnostic POV and why we look across the whole company before jumping to a solution
3	**Where We Can Help**	Show the major company-building areas where SVK has expertise/methodology
4	**Ways to Work With SVK**	Show what engaging SVK can actually look like — final commercial architecture TBD
5	**Who We Help**	Reinforce the stages/situations where SVK is most relevant
6	**Evidence / Client Outcomes**	Establish credibility and proof
7	**CTA — Let's Figure Out What Your Company Needs**	Move to assessment/conversation

HWH PAGE LINK GUIDANCE

- **Solution links** should let visitors go deeper into areas where SVK can help. For example, Growth Foundation →, Revenue Flywheel →, Founder & CEO Advisory →, as those pages/offers are finalized. Don't create links simply because something *could* have a page.
- **EGS/framework links** should be contextual and secondary. Where a visitor wants to understand the thinking behind an area of support, link back to the relevant EGS component rather than re-explaining the framework on this page.
- **Proof links** should connect relevant claims to Case Studies, Research Spotlights or other evidence. Where possible, match the proof to the area of help being discussed rather than sending everyone to a generic Resources page.
- **Conversion links** should be prominent. This page should provide natural opportunities to move toward an Assessment/Diagnostic or **Let's Talk**, with the strongest CTA at the end of the page.

Commercial architecture is illustrative / TBD. Final "Where We Can Help" and "Ways to Work With SVK" content should be finalized as part of the marketing and commercial planning process.

RESOURCES PAGE

#	RECOMMENDED	PURPOSE	DEEPER LINK
1	**Hero — Resources for Building Enduring Companies**	Establish this as the home for SVK's research, frameworks, practical guidance and tools for company builders	—
2	**Featured Resources**	Surface the most important, newest or most useful content rather than making visitors immediately navigate a library	Individual resource →
3	**Explore by Topic**	Let visitors find content based on the company-building question they're trying to solve — potentially aligned to EGS	Filtered resources / relevant EGS area →
4	**Research**	Establish Enduring GROWTH Research as a distinctive body of work; feature Research Spotlights and insights from experienced company builders	Research →
5	**Guides & Frameworks**	Provide practical, deeper educational material — EGS Guide, Growth Foundation Guide, future guides, etc.	Individual guide →
6	**Assessments & Tools**	Give visitors ways to apply the thinking to their own company rather than only consume content	Individual assessment/tool →
7	**Case Studies**	Show EGS/company-building thinking applied in real situations and the outcomes created	Case Studies →
8	**Articles & Insights**	Home for ongoing shorter-form thinking currently represented by the Blog	Articles →
9	**CTA — From Learning to Applying**	Provide a subtle bridge for someone who has learned enough and wants help applying the thinking to their company	How We Help / Let's Talk →

RESOURCES PAGE LINK GUIDANCE

- **Content links are the primary links on this page.** Resource cards, Research Spotlights, guides, tools, case studies and articles should link directly to the content rather than requiring unnecessary intermediate pages.
- **Topic links support exploration.** Visitors should be able to follow a topic across different content formats — for example, Growth Foundation could surface related research, guides, tools, case studies and articles.
- **Framework links should provide context, not compete with content.** Where useful, connect a resource to the relevant EGS component so visitors can understand the larger framework behind the topic.
- **Conversion links should remain secondary.** Resources should feel genuinely useful rather than like a lead-generation funnel. A restrained transition near the bottom can move someone from **"help me understand" → "help me apply this."**

Design Resources eventually to support **two ways of finding things**: **By content type** — Research, Guides, Tools, Case Studies, Articles **By topic / need** — the problem or area the visitor wants to understand.

ABOUT PAGE

#	RECOMMENDED	PURPOSE	DEEPER LINK
1	**Hero — Why SVK & Associates Exists**	Establish the reason SVK was created and the problem we're trying to solve for company builders	—
2	**Our Point of View**	Articulate the fundamental beliefs behind SVK: companies evolve; what they need changes as they evolve; fragmented advice makes company building harder; doing the wrong things at the wrong time is enormously expensive	EGS →
3	**The Enduring GROWTH System™**	Explain that those observations led to an integrated architecture for understanding how companies are built and where growth breaks down	EGS →
4	**Built From Experience**	Establish the practical foundation behind the thinking — decades spent building, scaling and leading companies across different stages and situations	Our Team →
5	**Strengthened Through Research**	Explain the Enduring GROWTH Research program and how SVK continues to test, challenge and deepen its thinking through experienced operators, investors, advisors and other company builders	Research →
6	**SVK & Associates**	Introduce Sue and the broader Associates model — multidisciplinary expertise brought together around the needs of the company rather than a traditional consulting bench	Our Team →
7	**What We're Here to Do**	Bring the story back to the founder/company builder: help people make better decisions sooner, focus resources on what matters, and build stronger, more enduring companies	How We Help →
8	**CTA — Let's Build Something Enduring**	Move someone who connects with SVK's philosophy and experience toward a conversation	Let's Talk →

ABOUT PAGE LINK GUIDANCE

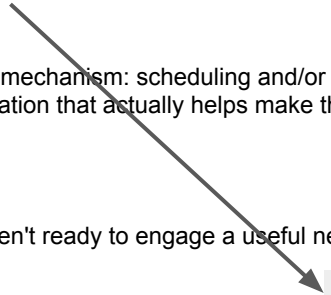

- **Story links should deepen the SVK narrative.** Connect naturally to EGS, Research and Our Team where visitors want to understand more, without turning the About page into a directory.
- **Credibility links should substantiate rather than interrupt.** Relevant research, experience, case studies or team profiles can provide evidence behind claims without overloading the main story.
- **Conversion links should be restrained.** Someone visiting About is primarily deciding *“Do I believe these people and their point of view?”* Let the story do that work, with a clear pathway to How We Help and a stronger Let's Talk CTA at the end.

LET’S TALK PAGE

#	RECOMMENDED	PURPOSE	DEEPER LINK
1	**Hero — Let’s Talk**	Make the invitation clear and low-friction: if you're building a company and something isn't working, you're trying to determine what comes next, or you're simply wondering whether SVK could help, start with a conversation	—
2	**What We Can Talk About**	Give visitors enough context to recognize appropriate reasons to reach out without requiring them to diagnose their own problem or select a service	How We Help →
3	**What to Expect**	Remove uncertainty about the first conversation — what it is, what we'll discuss, and what happens afterward	—
4	**Start the Conversation**	Primary conversion mechanism: scheduling and/or short contact form. Capture only information that actually helps make the first conversation better	Calendar / form
5	**Not Ready to Talk Yet?**	Give visitors who aren't ready to engage a useful next step rather than losing them	EGS / Resources →

LT PAGE LINK GUIDANCE

- **Conversion is the primary action.** Keep the scheduling/contact mechanism visually dominant and avoid competing CTAs around it.
- **Context links should be minimal.** If someone needs more information before reaching out, provide quiet links to How We Help or EGS rather than re-explaining SVK on this page.
- **Fallback exploration links** belong near the bottom. Visitors who aren't ready for a conversation can continue into Resources or EGS without reaching a dead end.

First conversation
Understand the company, where it is today, what you're trying to accomplish and what seems to be getting in the way.
Then
Determine whether SVK can meaningfully help — and, if so, what the most useful next step might be.
